

HUGHES OFF ON TOUR OF 10,000 MILES

Candidate's Wife, in Whose Judgment He Places Much Reliance, Accompanies Husband on Stumping Journey

BRIGHAMPTON, I. T., Aug. 5.—Candidate Charles Evans Hughes and Mrs. Hughes left here today on a ten thousand mile stumping tour which will carry them from coast to coast.

The Republican nominee expects to make nearly two-score speeches in such cities as Detroit, Chicago, St. Paul, Minneapolis, Fargo and Grand Forks, N. D., Helena, Butte and Missoula, Mont.; Spokane and Seattle, Wash.; Coeur d'Alene, Idaho; Portland, San Francisco, Los Angeles, Reno, Ogden, Salt Lake City, Denver, Cheyenne, Topeka, Kansas City, St. Louis, Lexington, Ky., and several points in Maine. He will not be back in New York until about September 10.

Never before in the history of politics has a candidate been accompanied on a speaking tour by his wife. But Mrs. Hughes is almost an oracle in the family of the former president, and her husband consults frequently with her and values her opinion of people and things.

Hughes expected to confer with Chairman Willcox during the day and will leave with his private secretary, Lawrence H. Green, and half a dozen other attaches at 9 o'clock tonight. Tomorrow the party will spend Sunday at Niagara Falls. On Monday Hughes is due in Detroit for possibly two speeches.

Panama Canal Traffic Again Reported Gaining

WASHINGTON, Aug. 5.—The Panama canal is open to all ships requiring not over thirty feet of water and has been open since April 15, it was stated at the office of the Isthmian Canal Commission today.

The conditions in Galliard or Culebra cut were said to be very favorable, although considerable dredging work is still being done so as to secure the proper width and depth of the channel.

The traffic through the canal is increasing constantly. New steamship lines are beginning to use it, the latest one being the New Zealand Shipping Company. The total number of ships that have passed through the canal going both ways from August 15, 1914, to July 1, 1916, was 1875.

Child Labor Debate Is Continued in Senate

WASHINGTON, Aug. 5.—The Senate continued debate today on the child labor bill, which will be passed one day next week. Senators fighting the measure are basing their opposition on contentions that the bill is unconstitutional. Senator Hardwick declared he was confident the Supreme Court would declare it so.

Senator Borah, supporting the bill, is expected to attempt to get immigration legislation passing it to the measure as an amendment.

Women Plan \$500,000 Vote Campaign Fund

NEW YORK, Aug. 5.—Efforts will be made by the leaders of the woman's party, it was stated today, to organize a group of 1000 women to raise a fund of \$500,000 for use in the campaign for votes for women this fall. Mrs. O. H. P. Belmont will go to Newport to start the movement.

NATIONAL POLITICAL NEWS

Progressive Party Dead, Says Robins National Chairman Endorses Hughes

CHICAGO, Aug. 5.—Raymond Robins, chairman of the Progressive National Committee and candidate of the Illinois Progressives for United States Senator in 1914, announced today that he would support Charles Evans Hughes, Republican nominee for President; declared that it was "manifest" that the Progressive party was dead and asserted "that wise and sincere Progressives" should join with Republicans in the common struggle for social and industrial justice in city, state and nation.

In the statement which was addressed to the Progressives of the country, Robins said:

"We Progressives stand at the cross-roads. American social, industrial and political life has broken down under the old individualistic control. A new national mind and conscientious development, social unity, industrial standardization, efficient political honesty from a self-controlled democracy—this is the goal of our generation in American life. I believe in the character and courage of the nominee of the Republican party. He is the most conspicuous example in our history of the possibilities that American politics may hold for success in able and unselfish public service. For myself I gladly enlist with the great majority of the Progressives of the nation under the leadership of Charles Evans Hughes."

Reviewing the party history, the statement added:

"In the 1914 and 1916 primaries the Progressive voters of 1912 deliberately and in overwhelming numbers abandoned the Progressive party. The refusal of the Progressive National Committee to favor a third ticket candidacy did no more than to make final the judgment entered by the Progressive voters themselves. When the Progressive National convention adjourned and the entire situation was considered, it was manifest that the end with the voters' decree had come—that the Progressive party was dead."

ASKS PROBE OF ARMS SHIPMENT

WASHINGTON, Aug. 5.—A resolution demanding an investigation of a visit paid by Cleveland H. Dodge, New York millionaire, on Secretary Lansing a few days after the Parry battle, was introduced in the House this afternoon by Representative Rodenberg, Republican.

Rodenberg charged that the day after Dodge called on Lansing, the secretary of state announced the arms embargo had been raised and that Carranza would be allowed to import one million small arms. Dodge, Rodenberg alleged, is a member of the Phelps-Dodge Company, interested in small arms manufacture.

Rodenberg further charged that Dodge has contributed heavily to the Democratic campaign fund. His resolution demanded a complete investigation of government-approved munition shipments into Mexico.

Wilson Cruising in Lower Chesapeake Bay

FORTRESS MONROE, Va., Aug. 5.—The naval yacht Mayflower, with the President and Mrs. Wilson aboard, was cruising early today in lower Chesapeake bay, having made a leisurely trip from Washington. Toward noon, the vessel was off Cape Charles City, Va., and it was said she would later drop anchor in Hampton Roads.

One Killed in Morning Auto Wreck

CHICAGO, Aug. 5.—One man was killed and four persons injured, including a woman, here early today when a motor car, steering gear caused an automobile to turn turtle. All five were pinned under the car.

Anthony Verderano, 39, was killed.

U. S. OWNERSHIP OF RAILROADS URGED

WASHINGTON, Aug. 5.—The strongest argument presented for government ownership of railroads is the threatened paralysis of traffic due to an employer-employee controversy, Senator Norris of Nebraska declared today. Should the impending disaster be averted, he announced, he will introduce a bill to advance the doctrine that private ownership of a public utility necessarily is opposed to the public interest.

Norris will introduce a bill calling for the construction or purchase of a transcontinental system—a line from the Atlantic to the Pacific and from the Gulf to the lakes. This he will propose to operate as a model utility, both to treatment of the public in rates and to employees in pay.

"Watered stock is the great evil of railroads," said Norris. "Many of them must earn interest and dividends on from two to five times their actual value. 'Nothing,' therefore, is more unfair and unprofitable than the present system of unwatered stock. It is a source of enormous wealth for a few men, while the rest of the country suffers with such economy toward their employees and with such a make-it-pay regardless attitude toward the public that the surprise is that the blowup has not come sooner."

"This strike is as inevitable as summer or winter. Possibly the situation may be patched up, but so long as the railroad managers must devote their every genius and their every atom of labor toward earning dividends and interest on values that do not exist, there is hanging over the traffic of this country—over its business life, its food supply, its milk trains that carry food for its babies—a Damoclean sword."

"Government ownership would succeed because there would be no water. Admitted that operation might not be so economical—and that term may mean, to members of the board, money gouging the public, nevertheless, with the tremendous watering of stock eliminated operation would pay."

"Far more important it would be in the public interest."

CHURCH BUYS LAND

An additional fragment of forty feet has been purchased by the congregation of the Third Church of Christ, Scientist, for the building site which is owned by the society at Fruitvale avenue and East Seventeenth street. The lot now has a frontage of 130 feet, on Fruitvale avenue and a depth of 103 feet on East Seventeenth street. The site is considered as one of the most desirable in the section east of Lake Merritt.

Grand Jury Will Begin Anew Tuesday

Acknowledgments and explanations following immediately the long grand jury session of yesterday, in which the accounting of the County Board of Education was under probe, have today served to throw side lights on the difficulties and alleged practices of the body, which were aired by the district attorney.

One item of \$650 for 26 meetings in the month of June arrested attention, and in explanation the witnesses admitted that the work accomplished at each meeting was of a very perfunctory character, such as might be expected in a four full sessions of the board. June is the last month of the fiscal year, and unless the treasury balance of a special fund, allowed for the sessions of the fiscal year, is exhausted before the 1st of July, it no longer is available. Two meetings in one month is an approximate maximum of possible meetings technically legal enough to warrant a per diem payment. This was accomplished by meeting six days a week.

So far as we know, there have been no intentional violations of the law. We presume that the grand jury is investigating the work of the County Board of Education just as they do that of all county officers. If specific complaint has been made against members of the County Board of Education for collecting money illegally from them, as is alleged, the charge is probably a misunderstanding of the nature of the work of the board, and to the fact that payment therefor is on a per diem basis. Much of the work of the board is done away from the board rooms, consisting of reading thousands of manuscripts of pupils of the county schools upon which their final graduation is based; the preparation of the course of study and the examination questions, which are then discussed in board meetings; the personal examination of eighth grade pupils for graduation on certain Saturdays of the year, etc.

The comparatively few hours spent in actual attendance at board meetings represent only a small portion of the work of the members of the board, but, according to the law, payment is made upon the basis of actual attendance at meetings. This necessarily makes the amount of business transacted at many meetings seem small.

"In our opinion, the expert services of the members of the board are worth more to the county than is paid for their membership. They are a regular monthly or yearly

salary, their compensation would probably be greater. As a matter of fact, legislation has been pending for a number of years looking towards a change in the present system of supervising the county schools, by providing a board which shall devote its entire time to the work. Under the present laws, the County Board of Education must of necessity transact its business and collect its salary as it is now doing and as has been the custom since the creation by the new constitution of County Boards of Education.

(Signed) "ALAMEDA COUNTY BOARD OF EDUCATION."

MEXICAN BORDEN BLAMED ON G. O. P.

Senator Lewis Tells Senate He Is Answering Accusations of Hughes.

WASHINGTON, Aug. 5.—On the heads of the "generals" of the Republican party lies the responsibility for lives in Mexico, Democratic Whip Lewis charged today in a Senate speech, announced as an answer to the Mexican issue raised by Charles E. Hughes in his acceptance address.

Lewis declared that irresponsible Mexican bandits had become encouraged to commit acts of horror because Republican leaders, in their anxiety to embarrass the president and conduct a campaign issue, had given the impression that the country was not united in support of its executive head.

Huerta having been eliminated, peace could have been restored with either Villa or Carranza at the government's head, Lewis said, had not American financial forces and Republican leaders determined to keep boiling the pot of Mexican disorders.

By a false display of the nation's sentiment toward Mexico, he continued, the Republican masters encouraged every outlaw and outcast to feel privileged to assault whatever represented President Wilson or his policy. These knew they would have the support of a great party in America which for years had been successful in electing presidents.

Senator Fall, Republican, said he would like to spend every cent of the Republican fund to send the Illinois Senator's address over the country.

"I have just listened to the most remarkable harangue, the like of which I never expected to hear in the halls of Congress. To reply to it would be to dignify it," said he. "The Senate is long in the recent school of statesmen, developed during the last three or four years, who are teaching the doctrine that patriotism means servility and subservience to a party leader."

Widow Causes Arrest of Civil Engineer

SAN FRANCISCO, Aug. 5.—Phillip Leroy Young, a civil engineer with offices in the Monadnock building, is under arrest charged by Mrs. Isa M. Pike, a widow, with the embezzlement of \$25,000. The charge is a considerable sum of money. He denies the truth of the accusation and repudiates other allegations made by the complainant.

Mrs. Pike, who is from Connecticut, is visiting with her niece, Mrs. Elliot G. Potter, 2625 Broderick street. She declares that Young, as her confidential agent, handled between forty and fifty thousand dollars for her investment and appropriated it for his own use.

San Francisco, Aug. 5.—The formal resignation of Rev. Frank L. Goodspeed from the pulpit of the First Presbyterian church will be acted upon by the session of directors Wednesday evening. This resignation has been in the directors' hands for more than a year but this is the first definite action to be taken.

Goodspeed will make the fact formally known to his congregation tomorrow morning.

"I will insist upon my resignation being accepted," he said today. "I have been a pastor for the past thirty years and during that time have been actively connected with church affairs without any lengthy leave of absence. Eight years of service as pastor of the First Presbyterian church, will close with my retirement at the end of the month. My system requires a good rest, and for this reason only I am retiring."

Goodspeed has been pastor of the local church for the past eight years and during his regime, the new \$30,000 edifice was built. Dissension arose during its construction among the members and caused a split in the congregation and a secession of a number of old members. No successor has been named.

Victory Before Peace, Says King

British Ruler Promises Allies and Belgium

LONDON, Aug. 5.—King George has telegraphed the heads of the entente allied states on the occasion of the second anniversary of Great Britain's entry into the war, as follows:

"On this, the second anniversary of the commencement of the great conflict in which my country and her gallant allies are engaged, I desire to convey to you my steadfast resolution to prosecute the war until our united efforts have attained the objects for which we are in common cause."

"I feel assured that you are in accord with me in the determination that the sacrifices our valiant troops have so nobly made shall not have been rendered in vain and that the liberties for which they are fighting shall be fully guaranteed and secured."

King George also sent the following message to King Albert of Belgium:

"I desire to assure you of my confidence that the united efforts of the allies will liberate Belgium from the oppression of her aggressors and restore to her the full enjoyment of her national and economic independence."

"I also desire to convey my deep sympathy in the grievous trials to which Belgium is so unjustly subjected and which she has borne with such admirable fortitude."

PALS IN PRISON, SLASH WRISTS

Securing Drug Was Object According to Attaches of Jail.

Elmer Sibley and Ivor Thorpe, two prisoners in the city prison, serving sentences for vagrancy, are nursing sore arms today following recent attempts to slash their wrists with pieces of electric light globes. Both are suffering from minor wounds. Sibley having slashed himself twice yesterday and Thorpe once. Sibley's first attempt occurred during the early morning, and it was necessary to rush him to the emergency hospital for treatment. At this time an incision of the left wrist was dressed. Last night Sibley again cut himself with gloves that were used as a weapon. The hospital was necessary. This time he had cut his right forearm.

Thorpe, who is Sibley's pal, punctured his right forearm with a piece of electric globe an hour after his companion had secured hospital treatment. He did the same thing July 28, but was discovered by the jailer before he had done serious damage. The police believe that the prisoners cut themselves with the idea that the hospital attaches might give them morphine or drug to allay their pain.

Many Thieves Ply Trade During Night

Numerous thefts and burglaries occurred in various parts of the city last night, as reported to the police by Mrs. Winifred Black, of the Hotel Gremlin, lost a gold watch and much of the stock of a confectionery stand she conducts at Ninth and Broadway. Mrs. E. E. Eaton said that a thief had entered the yard of his home at 4355 Hermon Court and stole the engine from his motorcycle. Burglaries in which small sums or articles of minor value were stolen were reported as follows:

U. S. Brakel, 590 Eleventh street; T. M. Gardner, 1748 Nineteenth avenue; Mrs. E. E. Eaton, 273 Twenty-first street; Mrs. F. Matthews, 1138 Seventh street; N. T. Rogers, 4387 Townsend avenue; Lawrence Bray, 638 Seventeenth street.

Calls Man in Case "Merely Chauffeur"

SAN FRANCISCO, Aug. 5.—The suit for \$25,000 damages for alienation of affection filed yesterday against Mrs. George P. Fuller by Mrs. Ingrid Haagen, wife of Gunnar Haagen, an automobile salesman, has evoked an indignant denial from the defendant. Her version of the story set forth in the complaint.

"I was driving on the Pacific boulevard when I first saw Haagen, who is only a chauffeur. One of the wheels of my car was damaged in a collision and Haagen, and a friend he called Jadin offered to be witnesses. Later they tried to sell me a machine. I finally hired Jadin to run my car and Mr. Fuller paid the bill for his services. Haagen drove several times when he was demonstrating a car that he wanted to sell to me. That is all there was to it."

Attorney Charles F. Hanton, representing Mrs. Fuller, says that efforts were made to have Fuller make use of the Haagen episode in his suit for divorce against his wife, but that the affair had been discredited by Fuller himself.

LONDON, Aug. 5.—King George has telegraphed the heads of the entente allied states on the occasion of the second anniversary of Great Britain's entry into the war, as follows:

"On this, the second anniversary of the commencement of the great conflict in which my country and her gallant allies are engaged, I desire to convey to you my steadfast resolution to prosecute the war until our united efforts have attained the objects for which we are in common cause."

"I feel assured that you are in accord with me in the determination that the sacrifices our valiant troops have so nobly made shall not have been rendered in vain and that the liberties for which they are fighting shall be fully guaranteed and secured."

King George also sent the following message to King Albert of Belgium:

"I desire to assure you of my confidence that the united efforts of the allies will liberate Belgium from the oppression of her aggressors and restore to her the full enjoyment of her national and economic independence."

"I also desire to convey my deep sympathy in the grievous trials to which Belgium is so unjustly subjected and which she has borne with such admirable fortitude."

MRS. BONFILLS TO TALK.

Mrs. Winifred Black Bonfills will speak before a joint session of the Women's Bureau and Manufacturers' Committee of the Oakland Chamber of Commerce, Wednesday noon, in the Hotel Oakland. She will talk on "Women in Civil Life." Mrs. Gladys Barry will preside and following the talk Mrs. Bonfills will be entertained by an automobile tour.

REV. SPENCER TO TAKE PULPIT.

Rev. Dr. Spencer, pastor-at-large for the Baptists of California, will preach at Calvary Baptist church, West and Twelfth streets, tomorrow morning, and evening and on each Sunday of this month. Dr. Spencer is from Canada and is well known in that country and the United States as an evangelical gospel preacher.

CHURCH TO ACT ON RESIGNATION.

The formal resignation of Rev. Frank L. Goodspeed from the pulpit of the First Presbyterian church will be acted upon by the session of directors Wednesday evening. This resignation has been in the directors' hands for more than a year but this is the first definite action to be taken.

Goodspeed will make the fact formally known to his congregation tomorrow morning.

"I will insist upon my resignation being accepted," he said today. "I have been a pastor for the past thirty years and during that time have been actively connected with church affairs without any lengthy leave of absence. Eight years of service as pastor of the First Presbyterian church, will close with my retirement at the end of the month. My system requires a good rest, and for this reason only I am retiring."

Goodspeed has been pastor of the local church for the past eight years and during his regime, the new \$30,000 edifice was built. Dissension arose during its construction among the members and caused a split in the congregation and a secession of a number of old members. No successor has been named.

Challenge Issued and Accepted Through Rival Newspapers and Commissioner of Public Safety Issues Warrants

BIRMINGHAM, Ala., Aug. 5.—Warrants for the arrest of Victor H. Hanson, publisher of the Birmingham News, and E. W. Barrett, editor of the Birmingham Age-Herald, were sworn out before the city recorder today by Arle Barber, commissioner of public safety, who alleged he had reason to believe that the men intended to fight a duel.

The warrants are the outcome of a controversy between the two papers, culminating in the publication of a card in yesterday morning's Age-Herald signed by W. H. Jeffries, business manager, which Hanson claimed reflected on his business honor.

Hanson wired Barrett in Asheville, demanding that he either disavow or assume personal responsibility for the attack. The Age-Herald, published the Hanson telegram this morning, together with one from Barrett accepting full responsibility and offering to meet Hanson at any time after next Tuesday.

Commissioner Barber also swore out warrants charging criminal libel against Barrett, Jeffries and C. M. Stanley, news editor of the Age-Herald, alleging publication of an article that would tend to provoke a breach of the peace. Hanson's bond was fixed at \$25,000. Barrett, who now is in Asheville, N. C., will be arrested on his return to Birmingham. No bond has been fixed in his case.

BROCKLEHURST IS FAVORED BY CLUB

Candidacy for Assemblyman Is Endorsed by Rockridge Republicans.

BERKELEY, Aug. 5.—At an enthusiastic meeting of the Rockridge Republican Club last night, N. C. Brocklehurst was unanimously endorsed for assemblyman from the Fifty-first district.

The candidate for the nomination made a short address, thanking the club members for their interest in the fight which characterized the endorsement. Brocklehurst said that the endorsement of the Republican party throughout the United States, and the high regard in which the party is held by the people, made the Republican party the predominant influence in the civil government of the United States. He said that the endorsement of the party by the club was a great honor, and that he would endeavor to represent the club and the people of the district in the assembly.

Real Republicans who believe in the conservation of the advantages of the United States must not only vote for and work for the Republican party, but they must lead their efforts to returning loyal Republicans to the lesser offices of the state and nation.

Brocklehurst advocated amendments to the present improvement act which would remedy the abuse of that act. "An amendment," he said, "which will give to the property owner a fair share of the unwarranted expenses being saddled upon their property, a fair share of the cost of the improvement work is absolutely essential for the welfare of the growing community. I think that I may be returned as assemblyman from this district so that I may frame and pass such an amendment."

Mother Asks Aid in Hunt for Baby

BERKELEY, Aug. 5.—Mrs. Anna Schneider, widow of a soldier in the German army who was killed early in the European war, today sent a personal letter to President Wilson asking him to detail secret service men to locate her baby daughter who disappeared from San Francisco last May.

She believes that the child was kidnapped by a woman. She says the woman was last heard from in San Diego.

COED IS LEADER IN PEACH DAY FETE AT CORNING

CATHERINE DE MOTTE.
Catherine De Motte Sells Fruit for Belgium

CORNING, Aug. 5.—Training gained at the University of California, where she was a leader in student activities, was put to use here today by Catherine De Motte, senior student, and sorority girl, Miss De Motte and a committee in her charge, led the "peach day" movement for Belgian relief.

The peaches, donated by Tehama county ranches, were sold by the college girl and her helpers for seven cents each. The slogan of the day was "seven pennies save a person."

Many baskets decorated in Belgian colors, containing four choice peaches for 25 cents were sold by sandwich men, among whom were the best known business men of the town.

SUMMER STUDENTS OFFER NEW IDEAS

U. C. Given Many Suggestions by Those Who Trudge Over Campus.

BERKELEY, Aug. 5.—The Summer Session students who today are on their respective ways to schools, to college, to farm and fireside, the mountain stream and seashore have plans for the improvement of the Summer Sessions at the University.

The students were given a questionnaire by the Summer Session Californian and they came thronging with answers breaking the Sphinx-like silence of many years.

Among the improvements suggested is everything from weeding out the faculty and occasionally changing the water in the men's swimming pool, to the holding of a choral and instrumental concert in the university would be perfect if an awning were stretched over the House of Representatives and the two branches of the State Legislature.

Real Republicans who believe in the conservation of the advantages of the United States must not only vote for and work for the Republican party, but they must lead their efforts to returning loyal Republicans to the lesser offices of the state and nation.

Brocklehurst advocated amendments to the present improvement act which would remedy the abuse of that act. Remains of Modoc Man Shipped to Home

BERKELEY, Aug. 5.—The body of James Wylie, pioneer Modoc county attorney, who died yesterday at 1938 Home street, Berkeley, was shipped to Cedarville, the family home, for interment today.

At the time of his death Wylie was recorder of the United States land office at Susanville. He was 67 years of age and came to California from Canada 45 years ago. He has been prominently identified with affairs in Modoc county many years.

Surviving him are a widow, Martha B. Wylie, two sons, Kesner W. Wylie, an attorney at Altama, and Thomas J. Wylie of Cedarville, and two daughters, Mrs. Estelle Hill and Mrs. N. J. Stet, both of Cedarville.

STRIKERS DISCUSS THEIR OWN CAFE

Efforts Are Planned to Affiliate Ice Men With Those Out.

SAN FRANCISCO, Aug. 5.—Striking culinary workers threaten to open restaurants of their own to fight their battle against the restaurants and cafes which declared for the "open shop."

This was the latest development today in the labor trouble which has rendered idle from 1000 to 4000 union men and women. Representatives advised officials of the San Francisco Labor Council that the culinary unions have sufficient funds to carry the strike through the summer and to win it, if members of other San Francisco unions will support them.

The opening of restaurants, conducted by the unions, was proposed as a measure to provide union men with place to eat. An attempt to persuade union ice men to refuse to deliver ice to "open shop" restaurants will also be made by the cooks' union, in the belief that such a move would constitute a serious blow to the places now operating without union help.

Both sides in the strike expressed confidence today.

Extending Plan to Other Property

With the success that has been achieved by E. N. Tapscott's realty coupon plan of buying property, whereby it is possible for the investor in real estate to save the monthly payment on a lot by cash discounts received on purchases of all personal and household necessities, property other than that owned by Tapscott may now be placed on sale under this plan.

In announcing this increase in the scope of his plan for buying property, E. N. Tapscott said:

"Since the inauguration of the Tapscott plan nearly all of the property owned by me has been sold. It has been my aim to sell property in all sections of the bay region under this plan and now, with the disposition of the major portion of my holdings, I am placing any property that owners may care to list with my office on the market under the coupon system."

"This offer is open to both those having an equity in a piece of property or the holders of a clear title to one or more lots, that are of desirable location and reasonable in price."

The Tapscott Coupon plan attracted considerable attention in local realty circles when it was first introduced about nine months ago and did more to stimulate the realty market than anything that has been inaugurated in many months. Under this plan Tapscott customers receive coupon books to the full amount of their monthly payment which entitles the users of the coupons to cash discounts in the stores of merchants in all lines of business.

AMUSEMENTS

RISKS LIFE FOR SACRED INSIGNIA

Priest Removes Candlesticks and Statuary From Burning Altar, Gaining Safety as the Roof of Edifice Crashes In

LIVERMORE, Aug. 5.—Father Donald McKinnon, who rushed into his burning church to save the sacred altar tokens, and Father J. A. Lally, who, though ill and bedridden, suggested untiringly the rescue when his home was threatened, are heroes of one of the worst fires in the history of the city. A planing mill, the old St. Michael's church, four dwelling houses and several barns were destroyed, causing a loss estimated at more than \$50,000. Two firemen were injured—Arthur Knox, who fell from a fire ladder and Geo. Meyers, who was bruised and cut in a fall from the roof of St. Michael's parsonage.

The fire broke out in the planing mill of Horton & Kennedy, at East First street and Railroad avenue, yesterday afternoon. Sparks fell on a motor lighting sawdust on the floor are believed to have been the cause of the fire. Edwin Kennedy, part owner of the planing mill, says he first saw the flames on the roof of the mill, and believes they were caused by crossed electric wires.

ORGANIZE FIRE BRIGADE

No one was in the mill at the time of the outbreak and within a few minutes the flames had spread through the building and to the lumber yard beyond. Town Marshal Charles P. Lefever called for volunteers to fight the blaze and the business men and high school boys responded. The boys formed a bucket brigade and prevented showers of sparks from the burning buildings from kindling upon the roof of houses in the east end of town. Sparks fell on the roof of the Sweeney opera house, a two-story building in the McLeod block, a four-story building, owned by the Farmers and Merchants National Bank of Livermore, the Valley Garage and the Diamond Flour Mills.

A sudden shift in the wind drove the flames westward, and caught the roof of St. Michael's Church and the residence of Peter May. The fire jumped the parsonage, which lay between it and the church.

PRIEST DISPLAYS BRAVERY

Father Donald McKinnon, Father J. A. Lally and Miss Henrietta Commans were in the house of Father Lally when he was in bed but managed to stagger into the street. Father McKinnon, at the risk of his life, rushed into the blazing church, and seizing candlesticks and statuary from the altar, carried them to safety just before the roof fell.

Within twenty minutes the church reduced to ruins. Two barns and three empty houses were burned before the fire was out. There remains nothing else on that side of the street to burn excepting the parsonage.

Rebel Cork Assn. Ready for Outing

The thirteenth annual reunion of the Rebel Cork Assn. will be held at Shilohmound Park tomorrow. The proceeds raised by the celebration are to be turned over to the benevolent funds.

Members of the organization are coming from various cities to participate in the celebration. The organization has no direct branches, but members are distributed throughout the entire state.

A number of special events for entertainment of the guests have been arranged. Exhibitions of Gaelic dances will be given by Pearl Hilkman, Hazel and Pearl Allen, Eileen Keohane and other noted dancing girls. There will be a series of games and a relay race for football and hurling teams.

Eugene McLaughlin is chairman of the general arrangements committee and John Green secretary and treasurer. Father Edward O'Reilly is chairman of the press committee.

SLEUTHS SEEK MISSING LAD

The local police have been asked to aid in the search for Raphael Dermabon, 9 years old, of 904 Pardee street, Berkeley, who disappeared from his home during the night. The lad was wearing blue overalls and a soft black hat at the time he left home. Raphael is described by his father, Edward Dermabon, as 4 feet tall, 100 pounds in weight, with light hair and blue eyes.

TWELFTH AND BROADWAY

SOCIETY

MRS. CHARLES FREDERICK GROSS, one of the popular hostesses of the east bay summer colony at Santa Cruz this season. Last week Mrs. Gross gave a large bridge party at Casa Del Rey for Mrs. Donald McPherson.

Ahead is one dazzling constellation of weddings—as any one can easily discover by casting a glance toward the social firmament. If August were destitute of any other gorgeous events, it would still be a gala month for the decorators, caterers and the modistes. The procession of ceremonies begins tonight with two Berkeley functions and after that it would keep one dizzy to follow their progress.

Berkeley society and the faculty set alike will turn out this evening at St. Mark's church for the Merrill-Fay wedding to be solemnized at half after 8. This, it is reported, is to be a young bride's last social event before her marriage to W. A. Merrill, has chosen a unique and unusually artistic scheme of decoration—sober and yet festive.

During her college days Miss Esther Merrill was both prominent and popular in the activities of the women students—no common feat in Berkeley. In the younger set of Berkeley had wished to entertain for her. However, she declined to give up the final weeks before her marriage to a round of festivities and the more formal functions have been postponed until her return from her honeymoon.

The friends of Prof. Percival Fay—at the University of California especially—are also planning to make it very gay for the two when they come back to Berkeley.

Their bridal party to attend them tonight includes a quartet of belles of the Berkeley young set—Miss Joy Wilson, Miss Elsie Schilling, Miss Jessie Hewitt and Miss Dorothy Hart. Miss Marjorie Slane will be the attractive maid of honor and to George McKinnon, of the University of California faculty has fallen the post of best man. David Merrill, Thomas Hine, Warren Terry and John Calkins will serve as ushers.

After the church ceremony there will be a small reception at the Merrill home in College avenue, with only the family, the members of the bridal party and a few other close friends present. After the wedding collation the bride and groom will leave on a fortnight's trip, the destination of which they are keeping secret.

One of the final festivities enjoyed by half a hundred or more of the very young set of Berkeley was the giving of books by an informal dinner given last evening by Mr. and Mrs. Harrison Clay for Miss Theresa Williams. Miss Williams, who is the daughter of Mr. Edward Lacey, now leaves for school in San Mateo county and Miss Elizabeth Clay for Miss Ransom's. Several of the other young set are among the guests to formally come out this season. Guests at this affair included Miss Dolly Heatherton, Miss Lynn Lyman, Miss Laura Miller, Miss Katherine Flag of Pasadena, Miss Flora Edwards, Miss Mary Bella Nichols, Miss Florence Brown, Miss Eleanor Lee, Miss Dorothy Moore, Miss Dorothy Cawston, Miss Marian Kern, Miss Robert Walker, Archibald Macdonald, Kenneth Walker, Bennett Acker, Will Moller, Clarence Williams, Harris Taylor, Harrison Ryker, Will Tyson.

Mrs. John Charles Adams and her three stunning young daughters were a much noticed group yesterday at the Techau Ice Palace and later at the Palace Hotel during dinner. With Mrs. Walter Fitzpatrick at Delta Delta fraternity, they spent an afternoon of skating. After dinner and the theater wound up the day with supper and dance at the St. Francis.

The wedding of Miss Margaret Locan, daughter of Mrs. N. L. Locan, of the Villa Hotchkiss this evening at 9 o'clock will be a much smaller affair, but one of considerable interest to college circles. The bride-elect is a former student at the University of California and a member of the Delta Delta Delta fraternity. Mrs. Locan is the daughter of Mr. and Mrs. William Hotchkiss of Claremont and a member of the Chi Phi. He is like her well known in Berkeley. He is brother of Mrs. William Wightman of Boston, whose feats at tennis when she was Hazel Hotchkiss have not yet been forgotten. Mrs. Wightman still keeps up her fine game and is a familiar figure in the courts.

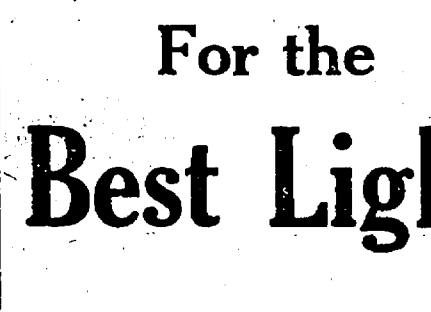

As a greeting to Mrs. Newton Booth Knox of London, Mrs. Thomas Arthur Richard will entertain a group of friends informally next Friday afternoon. This will be the first of a succession of affairs in honor of one of the most interesting of visitors to present in Berkeley.

Mrs. Knox, who is in the guest of her

mother, Mrs. Caroline Blossom, has led an extremely brilliant life since this day before yesterday, when, as the daughter of the east bay young set. She has been twice presented at court, while in London, and she has traveled, during her two trips around the world, to remote and far corners of the globe little known by the ordinary tourist. These excursions were taken with her husband, who is a noted mining expert.

Like number of others who have become interesting figures in London, Mr. and Mrs. Newton Booth are graduates of Stanford University. The wedding took place in Japan after their graduation, and Mrs. Knox had never been back since. Mr. Knox crossed the Atlantic and part of the continent this time with his wife, but from Denver returned to New York to sail for Spain, where he has accepted an important mining contract.

Caring for the wedding of Miss Marion Kathryn Williams, daughter of Judge and Mrs. L. R. Williams of Shasta county, and Arnold Thornton Brown of Alameda, on the evening of Wednesday, August 16, have been received by friends in several counties. Sixty have been bidden to the ceremony, which will be performed at the home of the bride-elect's aunt and uncle, Mr. and Mrs. Angus Clark, in Berkeley, with Rev. Edward Lamb, Parsons officiating. There will be a few attendants. Mrs. Gretchen Hardy Page (Gretchen Severman) of San Francisco, the matron

For the Best Light

The electric lamp should be of the correct voltage.

EDISON MAZDA LAMPS.

On what is termed 100-volt service, we recommend the use of 115-volt lamps and on 200-volt service, 230-volt lamps.

These conclusions have been arrived at after a careful and extensive study of modern electric lamps.

DONT TAKE SUBSTITUTES.

In your purchase of lamps observe this rule which with even voltage regulation maintained by Pacific Service will give the BEST LIGHT. Also assure the Longest Life of the Lamp.

SEES VALUE OF TIDE LAND LEASE

City Has Excellent Opportunity, Declares Robert M. Fitzgerald.

The proponents of the Smith plans for the development of the western waterfront have secured a statement from Robert M. Fitzgerald endorsing the proposal. Mr. Fitzgerald states:

"I consider the proposition of F. M. Smith and his associates to lease the tide lands back of the western waterfront, a good business proposition for Oakland. It is a proposition that can come only from those who have control of the privately owned lands lying back of the city land, for the development of this privately owned land is essential to make the venture a profitable one for those who put their money into it.

"With the building of a modern harbor, with docks and wharves, all of which is to be turned over to the city at once, with all of its industrial center, the further development of the city's property to make an industrial center, we not only have something now that we need, but also something of especial benefit to the western city, which is being lagged in development. The city is in no position to do this work now, nor does any one believe that it can do it for many years to come, consequently the solution of the deep water problem lies in having the work done by private capital.

"The expenditure of \$5,000,000 developing city property means more than appears on its face, for it will be necessary for those investing their money to bring about a general industrial center through developing their adjacent property, and this in turn will bring about the improvement of all other property in that vicinity. Again \$5,000,000 is more than has been expended in Oakland's waterfront for public improvement for all time in the past.

"I think the city has an opportunity that is well worth grasping, for if this development is not done in this way, it will be done for many years to come, and the city will be the loser. Ernest Brown, the best man, and little Miss Kathryn Clark, who is a girl, Master Angus Clark Jr. and Master Wade Williams will be the ribbon bearers.

After an enjoyable motor trip south, where they visited several of the popular beaches, Mr. and Mrs. Henry Mehrmann and their daughter, Miss Helen Mehrmann, are back in town. They are now preparing to leave for their country place at Pleasanton.

A dozen or more of the friends of Miss Helen Mehrmann were her guests this afternoon at an informal tea in honor of Miss Helen Mehrmann, given by her mother, Mrs. Walter Brown of Ruth, Nev., on August 17.

Miss Mitchell is the daughter of Mrs. C. J. Mitchell of Twelfth street, at whose home the wedding will take place. For two years she has been living in Nevada, where she has been married to a young man, Mr. Brown is a mining engineer in the service of a copper mine in Alaska. The young people are to make their home in Nevada.

As the wedding was Miss Margaret Merrezeau, Miss Helen Hill, Miss Adele Rillet, Miss Lucy Rillet, Miss Gertrude Edwards, Miss Helene Suhr, and half a dozen others.

Mr. and Mrs. H. C. McKee and their son, Grayson McKee, have returned from a six week tour at their summer home at Pacific Grove. During their stay they entertained as their guests Mrs. C. J. Lewis and Miss Marie Green of San Francisco.

At high noon today Miss Helen Earl, the daughter of Mr. and Mrs. H. Earl, was quietly married to Elmer H. Shine of San Francisco at the parish of St. Agnes. The wedding is of interest to many friends of the two families on both sides of the bay. The bride is an artist and a member of the San Francisco Art Association. At one time she was a student at the Berkeley School of Arts and Crafts, and since then has been connected with the teaching faculty of the Oakland and Alameda high schools as a part of the art department.

When the war broke out it had been her intention to go to Munich to study, but all Americans were ordered out of the country and she gave up her plans to go abroad. Her home will be hereafter in San Francisco.

While Lieutenant Fitzhugh Lee Minnerode, U. S. A., is at the Mexican border, Mrs. Minnerode and her children are at the home of Mrs. Minnerode, at 1015 Broadway, San Francisco.

As Miss Ethel O'Brien, Mrs. Minnerode was formerly one of Alameda's young set. Much of her time since her marriage has been spent in the Philippines. Her stay across the bay is very welcome to her old friends around here.

'SADIE LOVE' IS GAY AND FUNNY

So Very Gay, In Fact, That It Made Blase Gotham Gasp.

Announcement is made by the Orpheum Company that one of the most popular actresses in the country, Miss Sadie Love, has been engaged for the production of "Sadie Love." Oliver Morosco's big New York success, and she will make her first appearance with the Orpheum players next Sunday in the title role of the play. Miss Wayne is a pretty and charming leading woman, who will be remembered by thousands of theater goers for her superb work with Dennis O'Sullivan during the Irish singer's season at the Liberty Theater. She was formerly leading woman at the Alcazar Theater in San Francisco and in other seasons has been associated with Nat Goodwin, Andrew Mack and Cyrt Scott as a leading woman. She toured Australia with Cyril Scott and proved to be quite as great a favorite in the Antipodes as in America.

There may be added interest felt in Miss Wayne when it is known that she is an Oakland girl, who made her

first stage appearance in San Francisco when a mere slip of a girl with "D. Daniel." Pravey's famous stock company, which then included Blanche Bates, Frank Worthing, Mary Van Buren and others who have since become famous.

The Orpheum people are said to have paid the biggest royalty on record for a single week's production of "Sadie Love," having obtained the concession from Oliver Morosco himself.

Beauty Jailed As Bootlegger

Spanish Girl Arrested, Is Quickly Free d

LOS ANGELES, Aug. 5.—Suspected of engaging in bootlegging, Mariquerite Mareno, a beautiful Spanish girl of 20, was arrested today in Chicago as she alighted from a jitney bus from Pomona.

In parcels wrapped in newspapers the girl, according to the Chicago police, was carrying four bottles of beer and three of whisky. When taken to the police station she was searched by a woman officer and it is alleged several additional bottles of liquor were found concealed in her clothing. As the officers were unable to prove that she was engaged in illegal trafficking in liquor, they were compelled to release her, but will keep her under surveillance.

DOUBLING STATE TAXES.

Recently a statement was published, as a routine of daily news, from reports of a Michigan student of political economy, who had made an exhaustive study of the expenditures of the various State governments, which showed by comparison that California led all the others by a wide margin. Governor Johnson, the members of the State Board of Control and other administration officials have disputed the accuracy of these figures, claiming that the Michigan student had charged the State government with all the municipal and county expenditures. The TRIBUNE is not at this time in a position to say whether or not the same method was followed in calculating the expenditures of the other States, because it does not yet possess the full data from which the statement of the tax expert was drawn.

But however this controversy may turn out it is not essential to a realization of the fact that the cost of the State government has practically doubled since the inauguration of the present administration. We have other data, admittedly reliable, to guide us. For one thing we have the figures of the State Controller's office. The latest compilation was made by the controller July 31st last and covers nine years—from 1908 to 1916—of total receipts of State taxes. The last three years of Governor Gillett's administration are given as follows:

1908.....	\$3,261,097
1909.....	7,990,220
1910.....	8,873,791

The six years of the present administration are shown by the controller to have been as follows:

1911.....	\$ 3,369,815
1912.....	10,385,824
1913.....	10,887,144
1914.....	12,963,660
1915.....	13,516,046
1916.....	14,993,584

Thus it is shown by the indisputable figures of State Controller Chambers that the expenditures of the State government grew from \$3,369,815 in 1911 to \$14,993,584 in 1916, an increase of \$6,623,769 in annual taxes. It occurs to us that this shows additions to the taxes in quite as impressive a manner as any figures that might be compiled in Michigan or elsewhere, and that the challenging of the outside man's approximations is largely an effort to cover up the essential fact.

CHINA LOAN FAILS.

China has failed once more in her efforts to secure financial aid in the United States, the negotiations that have been pending for the last two months for a loan from New York bankers having been abandoned. The principal reason for this disappointment to the Chinese government, which is much embarrassed on account of the need of money to carry on the government, is to be found in the acts of the national administration at Washington.

Although the President sent an assistant secretary of state to New York to urge that certain bankers advance China some \$30,000,000, the bankers were unable to feel any confidence in his assurances that the government would recognize their interests in case they should be found in jeopardy or lend any moral assistance should the obligations of the foreign government to repay the loan be questioned. The bankers cannot forget that at the beginning of the administration President Wilson and Secretary of State Bryan denounced loans then made and negotiations then pending, and forced them to withdraw from the China financial field at heavy loss.

Another difficulty in the way of any member of the American banking syndicate formed in 1908 participating in a strictly American loan to China at present is the agreement entered into in that year between the American syndicate and the banking groups of France, Germany and Great Britain, to which Russia and Japan subsequently became parties. Under this agreement none of the six members of the so-called sextuple loan agreement may independently loan China money without the consent of the other members and the agreement runs until the middle of next year. While none of the foreign banking groups,

with the possible exception of Japan, are disposed to loan China money at this time, it is not likely that they are willing to have American interests make a separate great loan to that country. They would prefer to see China wait and suffer.

If China expects to borrow money in the United States at present she must go to lenders other than J. P. Morgan & Co., Kuhn, Loeb & Co., the National City Bank and the First National Bank, which constitute the old American syndicate. Even then she is almost certain to encounter opposition from Japan.

ARMAMENT FOR ARKANSAS.

From the Congressional Record we learn that some ten days ago nine munitions bills were introduced in the House, having for their object the greater defense of certain interior points in Arkansas. Representatives Thaddeus H. Caraway of Jonesboro and Henderson Madison Jacobway of Dardanelle, Yell County, are the newly discovered defenders of the illustrious southern State. They are both Democrats. Here is an example of the new defense bills, as described in the Record:

By Mr. Caraway: A bill (H. R. 17178) authorizing the Secretary of War to deliver to the city of Marianna, Ark., two condemned bronze or brass cannon, with their carriages and suitable outfit of cannon balls.

Mr. Caraway has introduced similar bills for the defense of Paragould, Forest City and Wynne and for Mrs. John S. Hornor of Helena. We do not know what peculiar conditions exist in the thriving city of Helena that require special artillery equipment for the protection of Mrs. Hornor. Mr. Jacobway's bills contemplate the defense of the cities of Atkins, Plummerville, Conway and Plainview. He does not ask for "condemned" cannon, but for each city "two bronze or brass cannon or field pieces," with carriages.

The votes of Mr. Caraway and Mr. Jacobway in the House against all proposed increases to the inadequate Hay army bill and the inadequate Padgett naval bill indicate that they would be far better pleased to hear the simple folk of the Caraway and the Jacobway districts exclaim (pointing to brass or bronze cannon in a public square or in Mrs. Hornor's front yard): "Mr. Caraway (or Mr. Jacobway, as the case may be) got us this," than to feel that the frontiers and the coast lines of their nation were effectively guarded. If we could in some way introduce the equation of personal acknowledgment and advantage into the defense bills they would encounter much less opposition.

If the Pacific Coast should have to face a foreign attack in the near future, we suggest that the good people of undefended San Diego might be able, with the assistance of Mr. Caraway, to borrow two bronze cannon from Mrs. John Hornor of Helena, Arkansas.

DID SPECULATORS KNOW?

Real estate operators must have invaded the Danish West Indies, for no other influence can account for the phenomenal increase in the land value of these islands from \$4,300,000 to \$25,000,000 in fourteen years, when it is remembered that the death rate is increasing, sanitation bad and the employees of the sugar plantations and mills on strike, and that the islands do not at present pay administrative expenses for Denmark.

If the treaty to purchase the islands at the latter figure is ratified by the Senate we will obtain 142 square miles of territory at the rate of \$176,000 per square mile. We were offered the islands at one-fifth the price in 1902.

All other land purchases by the United States have been better bargains. We got Alaska for \$7,200,000, or for \$12.25 per square mile, and for the fiscal year ended June 30th last Alaska produced nine times the value of the purchase price in products. The block of land acquired by the Louisiana purchase cost us slightly more than \$18 per square mile. Texas, Florida, Oregon, the Mexican cession, the Philippines, Porto Rico and Hawaii were all good "buys."

There will be many hard-fisted business men who will consider that Uncle Sam will get "stung" if he pays \$176,000 per square mile for St. Thomas, St. John and St. Croix.

THE DEMAND FOR "STUNTS."

Speaker Champ Clark in the course of a recent speech in the House on the revenue bill stated some plain truths concerning the growing tendency to enlarge the functions of the Federal Government with its natural corollary—increased government expenditures. As the Speaker with characteristic bluntness put it, "If the people command the Congress to do new stunts in legislation then they must foot the bills." We quote a few of his pungent sentences:

"You can not eat your cake and keep it, too. The American people seem to have demanded extraordinary expenditures. Tax bills have gone on increasing, and it seems they are going on increasing. The people demand constantly that the Federal Government shall discharge new functions, because—and I say it with genuine regret—to a large extent the State governments have abdicated their functions. It is an old saying that 'Those who dance must pay the fiddler.' If the people command the Congress to do new stunts in legislation, they must expect to foot the bills; and reasonable folks do expect to do so."

Curiosity and enthusiasm is often embarrassing and it was never more so than in the case of the undersea merchant boat "Deutschland" when she steamed out of Chesapeake Bay. This was a case where excursion boats, megaphones and hurrahs were not desired.

NOTES and COMMENT

The sage of the Richmond Record-Herald says this: "There is something the matter with a woman who always has to have someone protecting her honor."

That instance at Bureka will attract attention. A jury of women convicted a woman of burglary. A new trial was had, when a jury of men adjudged her to be insane.

How they marched in Newton, Ga., is explained in the News: "The Young Ladies' Auxiliary marched in the parade and there were 30 of them. Their uniforms consisted of a narrow blue waist."

The establishment of a grocery store at Portland is made the subject of a despatch with considerable headings, but an institution of the kind has been open a week in the celebrated town of Chico. Chico is too modest.

The federal government is doing its best to prevent a railroad strike. The whole country is in an attitude that might impress those who have to do with the proposed upheaval as being decidedly unfavorable to such a disturbance.

The San Francisco man who, in a divorce complaint, alleged that his wife fed him too constantly on eggs, doesn't appear to realize how high he was living. Eggs are 40 cents a dozen, and they have been 60. There seems to be no satisfying some men.

The Woodland militiaman who was sent back from Nogales because he couldn't wiggle his big toe, is much put out. He doubtless thinks that as long as the member is effective for hiking and is not requisitioned in pulling the trigger, he ought to pass muster.

The Riverside Enterprise figures it this way: "The cost of living continues to go up. A large portion of the world's coffin supply was made in Germany before the war. The poor man gets caught both ways—he can't live because of the cost and he can't die because of the cost."

A geological expedition is now making research in the Yosemite and Hetch Hetchy valleys for the purpose of finding out "how they are made," as a despatch puts it. It is difficult to contemplate these great natural wonders as having been made at all, as an automobile is, for instance. The inclination is to regard them as having just grown, like Topsy.

The fruit men of California, seeing how things fare when the state administration gets hold of them, do not see their way clear to join Mr. Weinstein's fruit distribution bureau. There may be drawbacks to fruit marketing, and Weinstein may be a good man, but they prefer troubles that are only communal to those that have a political admixture.

Slam from the Chico Enterprise: "The nerve of Oakland in threatening suit to force twenty-seven other Oaklanders in the United States to change their names, is, administratively, Oakland, Cal., is to be sure the largest of them all. But, just as in the old song, 'Ireland was a nation when England was a pup,' so there are Oaklanders in the East and Middle West that were Oaklanders when Oakland, Cal., was a wooded hillside."

Shouldn't wonder if there was a hidden meaning in this from the Corning Observer: "The speech of J. Stitt Wilson before the Men's Club reminds one that there are still a lot of that greatest of pests—the star thistle—in and around Corning. Mr. Wilson's arraignment of weed pests was one of the best we have heard in years, and in fact that there are so few of this character in this city speaks well for the citizens, but there is the star thistle which is rapidly multiplying, and right now is the time to get it and head it off."

SPIRIT OF THE STATE PRESS

When those projected feeders are finished, the Western Pacific should be one of the best nourished roads in the country.—Chico Enterprise.

The trial of a pig case at Millville nearly put the justice court on the hog. The plaintiff squealed, the lawyers roared and the defendant gave a grunt of satisfaction when acquitted.—Redding Searchlight.

In six years 1841 persons have been killed in California by motor cars, according to the state bureau of vital statistics. This record is probably not complete. The figures reveal, however, that the list of killed is steadily increasing, until last year it was 446, an average of more than one death per day.—Bakersfield Echo.

We do not agree with those papers that express surprise that the appointees and other office holders under the state administration should be out openly boosting for Governor Johnson for the senatorship. That is practical politics. They are a part of the very excellent and smoothly-running machine that the Governor has created, and nothing else can be, or ought to be, expected of the cogs in the machine. They are all helping the wheels to go around.—Bakersfield Californian.

GRAND RAPIDS THEFT.

In the July American Magazine Ida M. Tarbell, writing another article in her business series entitled "The Golden Rule in Life," shows how good would make good workmen. In this following extract taken from her article she states some interesting facts about Grand Rapids:

"In Grand Rapids, Mich., an industrial town of some 112,000 inhabitants, there were, when these figures were obtained, 24,407 residences. The greatest number of these were workmen's houses, street upon street of them. The building loan associations and the banks which make a specialty of loaning money on workmen's homes, say that 90 per cent of the married laborers in the town, skilled and unskilled, own houses. The average cost of these is about \$2,000. They are, as a rule, paid for in ten years. After 24 a day it demands little to own these homes. It means plain food and clothing and inexpensive amusements."

WHEN THE DEUTSCHLAND PUT TO SEA

—PORTLAND OREGONIAN.

AMERICANIZE THE CARIBBEAN.

At the open southern door of our republic, through which the warmth and sunshine come to us, lies one of the fairest and most neglected lands on earth—for we may regard the entire West Indian archipelago as constituting one beautiful land of mountain isles, which we should call Antilles. The Isles of Greece are richer in song, but not nearly so rich in beauty or resources. Yet before any of these islands came into American possession or under American influence—that is to say, before the year 1898—the long line of the Greater and Lesser Antilles was like a dragon which lay with his head across our very threshold. Actually within our strategic grasp, like a knife thrust into our side, lay Spanish Cuba, the multitudinous, Bahama Banked our coast as still they do, and the dragon's body and tail swept away in such an arrangement as to shut off the whole Caribbean Sea from our direct approach, and to erect a great barrier in front of the American isthmus which we were preparing to pierce.

Times have changed in important respects since 1898. Spain, master of one-half the area of the West Indies, is gone. We have, by war and conquest, made ourselves Spain's successor there, for although we quixotically abjured all territorial intentions at our setting out on the war, we have established a virtual protectorate over Cuba, we have taken outright Porto Rico, Vieques, Culebra and Mona, and we have put an actual protectorate upon, republican Haiti, and Santo Domingo. The dragon of Cuba no longer lays its head menacingly across our threshold; it has become a watchdog instead. And now we are in line to purchase, at a price which would be exorbitant commercially but is justified strategically, the Danish Islands of St. Thomas, St. John and St. Croix, which dominate the great Virgin passage into the Caribbean, round our position at Porto Rico, and afford us the best harbor for a naval base in the West Indies. Replacing Spain and Denmark and the anarchic republics, we shall have a good position in the Caribbean, looking toward the isthmus.

So far, so good. But that is by no means the whole story of the West Indies, Eliminating Denmark, three European nations still have great possessions there. Great Britain owns the Bahamas, 6480 square miles in extent, and still covering our coasts like a blanket from middle Florida to Santo Domingo; it possesses Jamaica, with its 4267 square miles, a lesser Cuba, most central of all the isles as regards the Caribbean, and facing direct.

ward the Panama Canal; it has the long line of the Lesser Antilles, the Leeward and the Windward Isles, Barbadoes, and rich Trinidad standing guard over the South American coast—in all, a splendid island domain of 17,050 square miles. And not a governing colony in them all. To this we may add, though it is not strictly a part of the West Indies, Bermuda, which lies off our Atlantic coast, and as a base of operations in a hostile war would menace all our Atlantic cities. France also possesses two fine West Indian islands, Guadaloupe and Martinique, and part of another, St. Martin. There is a large population on these French Isles, but they are politically and economically rather an embarrassment to France than otherwise. Finally the Dutch come in, with a part of St. Martin, Saba, Curacao, Oruba and Bonaire—the last-named off the coast of Venezuela.

Of all these foreign possessions, none except those of the British are very seriously held, or regarded under present conditions as valuable property. Altogether they are less in area, vastly less in wealth and consequence, than the American possession and protectorates. Socially and economically, they are in process of being Americanized. Their imports and exports are principally from the United States. They are, in fact, broadly under our fiscal system. Their intercourse is chiefly with the United States. Politically also they and Bermuda should be American. The entire Caribbean Sea is normally a maritime appanage of the United States. Its possession is essential to our future, politically and economically. The Caribbean should be Americanized.

And now is the time to do it. The great powers which possess the greater part of the Antilles, Great Britain and France, are engaged in a war which is their life or death struggle. They are dependent upon our friendship and support. They are anxious to maintain good relations. They are passing into our debt in an enormous sum. Manifestly they must value our sympathy and assistance far beyond the interest represented by these islands, which so far as the fiscal advantage of their government is concerned, are of little consequence, and with which they have little sentimental tie. It is the moment for us to assert our own great interest in that direction. The Caribbean should be made an American sea. A forward-looking government, when we have one, will surely open negotiations in that direction.—Boston Transcript.

NO ESCAPE.

Captain French, with two sergeants and four constables of the Northwest Mounted Police, is preparing to start on an expedition into the Arctic regions in search of the Eskimos who murdered Radford and Street, the explorers, two years ago. The trip, it is expected, will occupy three years, and may be full of danger. The prospects are, nevertheless, that it will be crowned with success. The Mounted Police never let a murderer escape in their territory. The chase is invariably maintained until the shedders of blood are brought to justice or perish in the wilderness. CARELESS APPOINTMENTS.

To the Editor of The Tribune:
I am moved to address a few words to our County Board of Supervisors and Oakland's City Council, through the columns of THE TRIBUNE, as to the caliber of the men they are in the habit of appointing to conduct our elections in the various precincts throughout the city and county. Especially do I call their attention to the matter of efficiency, integrity and sobriety of those appointed to serve in the residential districts. It is small wonder that so much dissatisfaction exists among our citizens at the conduct of our County Board and City Council, when in so important a matter as the election of the proper officers to conduct our various elections, so little regard is paid to the procuring of persons of integrity and efficiency to serve. A lot of "stewed bums" are dumped into the booths to conduct and guard our most sacred rights.

In my own precinct last Tuesday, one of the clerks could hardly write his own name, and he was so ignorant as to the duties of an election officer as to be perfectly useless. Another acting as a judge is an habitual "whisky soak" and incompetent. These are the kind of men in many instances that the women are compelled to associate with on various occasions. Can you blame them for not going to the polls to vote? One would think that our County Fathers and City Dads would realize that the influence of the "whisky soak" and incompetent is no longer an asset, but rather a handicap in gathering votes to their standard.

I trust that these few disagreeable facts may have a salutary effect upon the appointing power, and that in the future residential districts will no longer be affected by the appointment of such men to serve as election officers.

POLLY.

Let others sing the praises of Their foreign nurtured lasses, The little maiden that I love Their every charm surpasses; For France's dainty Sarahine Or England's lovely Polly Is not to be compared, I ween, To my Virginia Polly.

She doesn't know a wondrous lot Of modern fads and fancies, And she may have a salutary effect Upon the appointing power, and that in the future residential districts will no longer be affected by the appointment of such men to serve as election officers.

So fair is she, so wise is she, So filled with comprehension, So lavish with her sympathy, I quite exhaust invention In framing compliments that fit; To try it is pure folly, For no words that were ever writ Could justice do to Polly.

Let others sing of other lands And dangles there abiding, Of modern maidens found hiding; Where goddesses found hiding; I really feel these goddesses should be A prey to melancholy. For that, poor ladies, they ne'er may see My own Virginia Polly.

MAINE'S NATIONAL PARK.

The Sleur de Monts National Monument on Mount Desert, Me., created by presidential proclamation, is the first national park east of the Mississippi. Its 5000 acres of mountain scenery are given to the Government by the generosity of the owners, represented by George B. Dorr. BOMB PROBE
BACKER IS
THREATENED

Police Seeking Writers of Letters to Charles Crocker, Member of Law and Order Committee and Many Others

Employees' Liberty League Signatory to Several Communications Containing the Promises of 'Extermination'

SAN FRANCISCO, Aug. 5.—With the receipt today by a member of the Law and Order Committee of a threatening letter promising "vengeance for the bomb outrage to earth," the police turned their attention to searching for the author of a score of anonymous communications sent out before and since the preparedness parade.

"You may get our friend and brother sent to prison, but the gang will get you and your dam family."

"The Gang," crudely printed on a bit of scrap paper, this missive was found in the mail of the official concerned, whose name the police will not reveal, and who has been aiding greatly in bringing the persons responsible for the bomb conspiracy to earth.

LAYS PLANS FOR CAPTURE.

Captain Duncan Matheson at once began laying plans for the capture of the author. A comparison with the postals received by prominent citizens prior to July 22 would seem on the surface to indicate that they were not in the handwriting. The latest communication seems more crudely "kitten" up than those opposing preparedness, which were signed by the Employees' Liberty League and a half dozen specimens of which are in the hands of the detective bureau.

It became known today that Chas. Templeton Crocker of Burlingame was one of those to receive an anonymous postal prior to the parade. The message was as follows:

LETTER TO CROCKER.

"Your extraordinary activity in promoting and glorifying militarism marks you as a vicious and dangerous man, and the immediate extermination of your and your brutal, greedy, parasitic, thieving and war-making class is the duty of the sole and patriotic duty of the

"Employees' Liberty League." Samples of the handwriting of all the suspects in custody will be taken for comparison. The detective bureau will make copies of both communications quoted above at the dictation of detectives, printing the words instead of writing them. The specimens will be turned over to the detective bureau. Expert Carl E. Schenckel, who will make a report to Captain Matheson. The postal inspectors are already at work on the case, and now that preparations have almost been completed for prosecuting the five alleged bomb plotters, the special investigation bureau will be able to turn its attention to running down the anonymous writer.

The police today declared they had learned of a correspondence between Warren K. Billings and Thomas Mooney through messengers selected carefully as agents to avoid suspicion. Several of the letters passed back and forth have been confiscated by District Attorney Fickert and a search is being made for a message despatched on the afternoon of July 19 through the secret service of Alexander W. Brennan, assistant district attorney. Billings met Speed at Fourth and Market streets, showed him a note and asked him to take it to the office.

"I can't go myself because I am being watched by Pinkerton detectives," Billings said. Brennan says that Speed left and he believed that he might be followed, entered the postoffice and left by another door, going in a roundabout way to Mrs. Mooney's studio. There Mooney and his wife read the communication and told him to take it to the office at the Blast office," according to Brennan.

It was that meeting that led the detective to raid the office of Alexander W. Brennan, editor of the Blast, and his associate editor, Mary Eleanor Fitzgerald. When Billings was asked about this secret session and the note which apparently summoned him, he said, "That's all irrelevant and immaterial. You can't prove anything by that."

CANNOT FIND IT.

Brennan says they have been unable to locate this note, but that they have a number of other notes in their possession. Discrepancies are claimed by the police to have been found in the stories of the Mooneys relative to what happened on the morning of the preparedness parade. Both have told the investigators that they were alone in their office. According to Brennan the prosecution has witnesses who will affirm that there was a meeting or conference at 11 a. m. attended by men who in general appearance resembled Billings and Nolan.

The district attorney's office has two suitcases full of correspondence, said to have connection with the bomb outrage, and several clerks are going over hundreds of letters and communications of all kinds in the hope of finding incriminating evidence. Just where all of these missives were seized is not made known.

Kindness with some is a habit, that grows as the hours fly, And many there are who would be kind than be lord of the sky.

"Then, matron, lend ear to thy babes As sung by a friend staunch and true, For there never was mortal so pleasant To me, kindly matron, as you."

MATHER PROMISES ADDRESS
INTERIOR OFFICIAL WILL AID

STEPHEN A. MATHER, assistant secretary of the interior, an Oakland visitor.

Assistant to Secretary Lane Has Warm Spot in His Heart for Oakland

Stephen A. Mather, assistant secretary of the interior, visiting in Oakland today, who has charge of the park roads department of the federal government, will be one of the principal speakers at the "Good Roads" convention which Oakland is seeking to bring here this fall. Mather, who was formerly a resident of this city and a graduate of the University of California with the class of '87, has already promised that he will be on hand in the event it is finally decided that Oakland shall be the convention city.

"I have a tender spot in my heart for Oakland," Mather said today. "I spent many happy days here. Why, I was a playmate of the man who is now your postmaster, Joseph J. Rosary."

Mather said that old home. It is still standing.

Millions of dollars in "good roads" funds are in the care of Mather, who administers their expenditure in the making of roads and the establishment of hotels and camp sites in and near national parks.

Reply to De Facto Government Regarding Proposed Joint Commission to Settle Border Difficulties Not Formulated

State Department Will Not Announce Its Position Until Return of President Wilson Monday From Potomac Trip

WASHINGTON, Aug. 5.—The reply to General Carranza's note regarding the proposed joint commission to settle the border difficulties will not be formulated until President Wilson returns Monday from his week-end cruise down the Potomac. State Department officials said today there would be no announcement as to the position until that time. It was indicated that while not entirely satisfactory as opening the way to broadening the scope of discussions by the commissioners as is desired by the President, and information has reached department officials that the note was intended to cover the possibility, although it does not mention further suggestion except by inference. Whether that will be regarded as sufficient to warrant proceeding with the negotiations by naming the American commissioners and without further correspondence will be determined by President Wilson.

The State Department has renewed its representations over the imprisonment in Mexico City of H. A. Dunn, an American electrician, charged with having sold dynamite to Zapata bandits.

The department has also made inquiries as to the charges against Mr. Fulton, Canadian manager of the Electric Light & Power Company in Mexico City, who has been thrown in prison, according to reports to the British embassy here.

Guardsmen May Join
Reserve After 3 Years

WASHINGTON, Aug. 5.—National Guardsmen now in federal service who complete their required three years of active service will be transferred to the National Guard reserve of their respective states or territories unless they desire to remain in federal service.

Juarez Troops Sent
to Apprehend Tames

EL PASO, Aug. 5.—General Francisco Gonzalez, commandant at Juarez, ordered 700 men today to search the hills south of that city in an effort to apprehend Mariano Tames, who with six men of the defense corps deserted yesterday.

Riojas Quits Ojinaga;
to Pursue Bandits

PRESIDIO, Mex., Aug. 5.—The de facto government of Ojinaga under Colonel Jose Riojas announced today that Riojas had announced he intended to proceed southward along the Conchos River to investigate reports that a small band of bandits had been operating between Tijuana and the Rio Grande.

The Riojas forces composed largely of Mexican ranchmen.

TAXPAYERS'
LEAGUE AND
DAVIE BREAK

Executive Comes to Parting of Ways With the Civic Body Which Fathered His Candidacy for Office in 1915 Fight

Mayor and Dr. R. M. Higgins Are Bitterly Denounced in Resolutions Adopted Last Night by Civic Organization

Mayor John L. Davie and the Taxpayers' League, which fathered his candidacy for the office of chief executive of the city, have come to the parting of the ways. The break between the mayor and the league is a finally set forth today in unmistakable terms in a set of resolutions passed by the league and bitterly criticizing Mayor Davie and Dr. R. M. Higgins.

There is now no organized body giving its political endorsement to Mayor Davie, according to members of the Taxpayers' League, who have been instrumental in causing this body to break with Mayor Davie.

Reading the Green

Mouck worked hard all the way at

Portland and blanked the Oaks.

The Beavers' hit Boyd and Burps with

easy grabbing left bingles and six runs.

Loug to Loug only got one hit but it

was torrid, and paved the way for Port-

land's first tally in the second verse.

Buddy Ryan knocked one of Erickson's

choicest out of Recreation Park in the

sixth at San Francisco and brought vic-

tory to Salt Lake.

Aside from this little episode it was

a pitching duel. Pat Flittery having the

breaks over Erickson. Decannera

without Angels went in the first inning

and won their fourth straight from Vernon

right there.

Four hits sent three runs home.

Wolter and Murphy were the hard

hitters. The first inning was the hard

and Mattick got two safeties apiece for

the Bengals.

Yesterday's big league hero was Eddie

Plank, who had a back injury and was

holding the Red Sox to two hits, al-

though St. Louis hit fourteenth straight

victory.

Groucho Solly Hoffman, no mean hit

heats spaghetti one piece at a time, made

his bow in a Yankee uniform in the

first game of his new team, and a

base and fielded errorlessly.

Jimmy Langford, held the Giants to

one run. Langford, who got one

of them. He stole three bases.

Johnny Evers came through with his

usual, and a back injury and was

growing meek, mild and growl when

he is out of the game.

The Athletics lost their eighth straight

game and worse, lost the services of

Hughes. High, a game leg forcing him

to join the Athletics.

Billy Sullivan, the Detroit American

league team scout, who has been

in the major league for three years, ar-

rived yesterday, and according to his

plans, will remain here for the season.

Who looks over the Coast league tal-

ent thoroughly and doesn't propose to

be rushed about it.
